

**SYCAMORE PARK DISTRICT
SELECTION AND RANKING OF PROFESSIONAL SERVICE FIRMS**

The Sycamore Park District is announcing the final ranking of firms who submitted qualifications for the following identified project:

Trail Project PHASE II Engineering

The Sycamore Park District solicited a Request for Qualifications (RFQ) for Professional Services to complete Phase II Engineering on a successful IDOT Grant for Construction of a roughly one mile trail segment, as a connector to the Great Western Trail.

As this project will use Federal Funds for a portion of the cost, the park district must publish its top three firms from the submissions it received. In rank order, those top three firms are:

1. Engineering Resource Associates; Warrenville, Illinois
2. Greenberg-Farrow; Arlington Heights, Illinois
3. Collins Engineers, Inc.; Chicago, Illinois

Daniel Gible, Secretary, Board of Park Commissioners
