Artist Explorations

AGES 6-11 **NEW!** Join our Artist Explorations class, where each week we delve into the world of a different artist. From Van Gogh's swirling brushstrokes to Picasso's cubist masterpieces, the children will immerse themselves in the techniques and styles of different renowned artists. Through hands-on projects inspired by each artist, the kids will unleash their creativity and develop their own artistic voice while exploring the rich history and tapestry of art.

Thursdays • 4:30-6pm

Artful Alchemy: A Collision of Art, Math & Science

AGES 9-15 **NEW!** Dive into the world of Artful Alchemy: Where art, math, and science collide. Explore the intersection of these disciplines as you discover the beauty of symmetry, patterns, and geometric shapes in art. Through hands-on projects, kids will experiment with color theory, explore the physics of light and color, and unlock the secrets of perspective drawing. Let your imagination soar as you merge artistic expressions with mathematical and scientific principles, creating stunning works of art that showcase the harmony between creativity and logic.
