Positive Feedback:

- President Kroeger noted we just gone through the busy season with all areas and everyone is just knocking it out of the park. He thanked staff and asked that it be passed to the other staff.

Plan Commission: Commissioner Doty noted he attended the August 12th meeting. The sole topic was Brian Grainger request to modify the number of occupants per unit in each building. That measure passed 8-1.

Commissioner Graves met with Brian Grainger several times and went through the project. He noted the plan commission passed 8-1 so they were in favor of it but then the council voted it down. He is not sure why the council voted it down when the plan commission passed it. Commissioner Strack noted the density is not outside of the rules and is barely over the medium into the high density. There were previous developments the plan commission supported that were higher density. Commissioner Doty noted the meeting went into details with floor plans. There were residents of Old Mill that spoke against it and in favor of it.

Old Business:

Construction Updates:

- **GWT:** Director Bailey noted we received approval for the change, and it was approved in January. Jeff Keicher looked into and found it was never sent to us or ERA. John with ERA has a meeting set up to get appraisals set up to get those done. Then we can get the updated prices to the owners. We need to get this let out by November to meet our deadline date for the grant. Director Bailey noted the FS Grain property has been registered with the County.
- **Reston Ponds:** Director Bailey noted the pickleball screen was purchased. Supt. Donahoe noted they just received it yesterday, so should get up soon. He also noted the path is in from the pickleball court to the sidewalk.

Construction Updates – cont'd

- **Solar Panels:** Supt. Donahoe noted we had the planned power outage, and all went well. We are still a few steps away from the finish.
- **North Grove:** Director Bailey noted we received the construction schedule. They are meeting on September 3rd to go over design. Looking to go to bid on December 2nd with the bid opening on December 20th. We would start construction in July of 2025.
- **Riverside Soccer Complex:** Director Bailey noted the drawing was sent to the city this week. They approved the design with only a few changes. We will go to bid in October with construction in June of 2025 for the parking lot.
- **Community Gardens:** Commissioner Strack noted there was nothing on this.
- **WPA Shelter:** Director Bailey noted we are in a holding pattern for now. Probably bid next year for 2026.

Dog Park Policy/Guidelines: Supt. Metcalf noted they brought the board last month the new dog park rules and policy and procedures. They listened to the great feedback and suggestions so made a few changes. This version is better than the original one. Director Bailey noted they created a “Are You Ready for the Dog Park” document that we borrowed from a veterinary that will be included. Sarah added hyperlinks to the document.

Motion

Commissioner Strack moved to approve as presented. Commissioner Graves seconded the Motion.

Roll Call

President Kroeger called for a roll call to approve the motion. All commissioners present voted Aye. Motion carried 5-0.

New Business:

Meeting Change: It was decided to leave the September 24th meeting as is.

Paving Contract: Supt. Donahoe noted we were very happy with the bids. We had budgeted for \$130,000 and it came in at \$72,565.38. This company has done a lot of work for park districts.

Motion

Commissioner Strack moved to approve the bid from AA Paving. Commissioner Doty seconded the Motion.

Roll Call

President Kroeger called for a roll call to approve the motion. All commissioners present voted Aye. Motion carried 5-0.

Sprayer Purchase: Director Bailey noted this has been in the capital budget for 2 years. Supt. Donahoe noted he was told by his vendor, we couldn't get it until 2025 but then the company called him and they have one available. We are not adding to capital, but we are just moving where it is spent.

Motion

Commissioner Strack moved to approve the purchase as presented. Commissioner Graves seconded the Motion.

Roll Call

President Kroeger called for a roll call to approve the motion. All commissioners present voted Aye. Motion carried 5-0.

Clubhouse Wood Deck: President Kroeger noted the deck on the front side of the clubhouse has a higher step and people have tripped on it. Supt. Price noted it is a hazard there and he is not sure what the ADA report states about it yet. Director Bailey noted we will have the ADA report in September. Commissioner Strack asked if there is something structurally under the deck that requires the step to be that high. Supt. Donahoe noted it is at that height to meet the height of the doors. He also noted we put stripes on there before. President Kroeger asked for a safety stripe to be put there again temporarily. Director Bailey noted she is sure this area is in the ADA assessment for different spaces. Staff will look at the report and determine what needs to be done first.

Administrative Initiatives (9/1/24-9/30/24)

Golf

- I gathered some incredible data during this prolonged rain drought. Since the July 15th storm, we have only received 2.25 inches of rain from just three rain events. We have not, nor are we forecast to at this time, received any rain during the month of September. If this comes true, we will have just over two inches for two and a half months, which is about a nine-inch deficit from average.
- Due to the drought, we are watering heavily every night. The river level is low but has maintained at a level so far that still allows us to irrigate as needed. We are checking irrigation heads and watering hot spots during the day then adjusting night watering times accordingly.
- The lack of water allows us to save some time on mowing as just the main irrigated areas need regular cutting.
- Staff continue to water flowers and plants, newer trees, trim trees, and shrubs, and have completed trimming an edge around many sand bunkers.
- The road between one tee and nine tees will be replaced on September 30th weather permitting. We will be closing holes one and two during the operation. If weather and equipment cooperate, we will go ahead and close the front nine that day until afternoon when we will also aerate the front nine greens.
- The clubhouse and pro shop HVAC units will be changed out and updated in October.
- After a two-year lull, we once again have some skunk digging happening at night on some areas of the course in the rough, mostly east of the river. We fix the out of the way small patch areas as they occur and retreat for grub worms at the same time.

Sports

- All fall sports are underway. AYSO soccer will go through mid-October with Dekalb County United soccer playing until the end of October.
- Storm and Syco softball groups along with in-house girls' softball are playing during the week and weekends through the third week of October. Sycamore Youth Baseball will be conducting training clinics on field one on Tuesdays and Thursdays through October 3rd.
- Several of our staff met with leaders of AYSO and Dekalb County United to figure out if more space might be available, mainly for practices, as the groups move forward. We will be able to have some more space at South Prairie and Kiwanis East parks for practices and AYSO might have some spots at our Riverside complex during the week for DCU depending on numbers.
- Staff continue to mow and trim the complexes when needed, which has been much less with the drought along with daily field preps for the ball games. Staff have also been adding soil and seeding thin areas with sodding edges on fields 13-16. The soccer fields have gone dormant with the dry weather.

Parks

- I attended staff, Board, and park planning meetings along with ADA plan meetings.
- The Reston Ponds Park additional path is completed along with the new windscreens added on the fence of the pickleball court.
- Two new replacement park signs have been added to Founders and Kiwanis East parks. We will continue to replace two or three a season as the old signs age out.
- Park staff have been mowing, trimming, cleaning parks, setting up shelter rentals, trees, and trail pruning. Kiara has been mowing down sections of natural areas that contain contaminant plants. She will be seeding the natural area at the new Reston Pond Park and water retention area just south of the clubhouse parking lot when the weather cools.
- Staff have completed adding new mulch to several playground areas.
- Shelter rentals have continued every weekend through the month.
- The solar installation project is ongoing, and they will need another power shutdown to complete testing and getting the system online. They are thinking the system will be operational in November.
- The splash pad was closed after September 1st and the system has been drained and winterized.
- The pond that drained down behind the houses on Freedom Circle has been repaired. The broken old farm tile line that collapsed has been removed. The pond will not fill until several large rain and spring snow melting events occur.

Administrative Initiatives (10/1/24-10/31/24)

- Attending staff and Board meetings.
- Hopefully, normal temperatures and rainfall will happen in October. We plan to aerate the golf greens, plant landscaping, have the main road rebuilt, start working on mulching and blowing falling leaves, and performing final turf mowings of the season.
- Fall sports will continue until the end of the month. Seeding/sodding and fertilizing of worn areas will be completed.
- I will be gathering costs for Capital equipment planning and working on operating budgets for 2025.
- Meet with sales reps for early order options for turf products for next year.
- Continue inspections and repairs of playgrounds, trim along park trails, along with prepping weekly for shelter rentals.
- Continue meeting with Upland Design on development of North Grove Park for next year and parking lot plans for the soccer complex for next summer.

AGENDA ITEM:

2024 Access Audit and Transition Plan

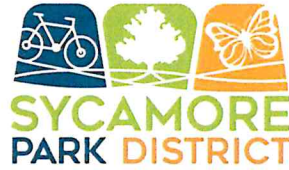

BACKGROUND INFORMATION:

The WT Group has identified several core areas for the District to address in order to enhance its accessibility and meet ADA requirements. Key priorities include upgrading facilities to ensure accessible routes, bathrooms, and parking spaces across all parks and recreation sites. This involves eliminating barriers like gaps and changes in level on sidewalks, ensuring compliance with door opening force standards, and maintaining signage for navigation and accessibility. Special attention is given to restroom facilities and parking, where ADA compliance must be maintained or retrofitted to meet current standards.

Training for park maintenance, recreation, and administrative staff is a critical part of the district's strategy to ensure the long-term maintenance of accessibility features. This includes training on the correct placement of park amenities to avoid obstructing accessible routes and ensuring regular inspection and maintenance of doors and walkways.

Furthermore, the report emphasizes the importance of making playgrounds and sports fields accessible, with a recommendation to retrofit one of every three such areas across the district. The District is advised to continue maintaining accessible fishing and picnic areas while phasing out older, non-compliant assets.

The District's transition plan outlines a phased approach to completing accessibility upgrades, prioritizing the most critical needs while balancing available resources. Additionally, it encourages promoting success stories and fostering strong relationships with local advocacy groups to ensure ongoing support for accessibility efforts.

FISCAL IMPACT:

Phase One estimated cost: \$2,396,246.55 over five years for this phase focusing parking, restroom and low hanging fruit utilizing existing staff resources.

Phase Two estimated cost: \$431,530.75 focusing on sports fields, courts, playground surfaces, playground components and other areas.

Phase Three estimated cost: \$5,046,377.65 over eight years focus on trails systems and costly retrofits.

STAFF RECOMMENDATION: We will be adding the recommendation to our ADA transition plan and identifying which areas we will address first and detailing that in our strategic plan. Cost listed above are estimations and should not be considered current pricing.

STAFF RECOMMENDATION AND INFORMATION

AGENDA ITEM:

Park and Construction updates

BACKGROUND INFORMATION:

Great Western Trail:

- We have the deed for FS Grain
- We have received the ok to move forward with the next steps for the northern most property
 - Need to write a letter to IDOT requesting additional time to complete items for the grant. Will work with ERA to do so.

Reston Ponds:

- Part 2: the second park site location was in conversations between Lennar and Shodeen. We submitted the requirements for turning over the property to us and were then informed that Lennar was not going to move forward with the purchase.

Solar Panels:

- We have one more shut down for both buildings with ComEd before the batteries are up and running.

Memorial Park Softball field w/the school district:

- No current updates

Pool Building:

- We will need to get additional quotes and decide when we want to go out for a bid on demolition. In process.

North Grove:

- Status is the same: the district was awarded an OSLAD grant and will move forward with planning and bidding out the construction for Fall of 2024 and construction to start in Fall of 2025. Potential completion 2026. We will be working with Upland Design and ERA on this project. Waiting to hear back from Upland on when we can bid the project.

Riverside Soccer Complex:

- ERA is preparing the construction documents for the additional parking lot so the project can be bid out in the fall for 2025 late spring/early summer. Jeff and I met with ERA. They have adjusted the design to be less costly and are working on the updated document with project estimates. We are looking to go to bid on Tuesday November 12th or Wednesday November 13th.

Community Gardens:

- A letter has been written for the property owners to consider an easement and Ancel Glink has sent over a draft agreement. That will need to be sent out to the property owners. In process

AGENDA ITEM:

Strategic Plan Document

BACKGROUND INFORMATION:

The 2025-2030 Strategic Plan for the Sycamore Park District outlines a forward-thinking approach to enhance community engagement, recreation, and sustainability.

The plan emphasizes five core priorities:

1. **Access and Equity:** The district commits to ensuring that all residents have access to park services, regardless of socioeconomic background. This includes developing scholarship programs and improving ADA compliance to make facilities accessible to everyone.
2. **Health, Wellness, and Safety:** Sycamore Park District aims to promote physical and mental well-being by providing safe, accessible, and well-maintained recreational facilities, including expansions to the pool and trail networks.
3. **Sustainability and Conservation:** With a focus on preserving natural resources, the district will prioritize green spaces and work on conservation efforts to ensure longevity for future generations. This includes environmentally conscious programs and facility developments.
4. **Community Engagement:** The district plans to strengthen ties with the community by offering diverse programs, creating partnerships with local organizations, and fostering open communication to involve all demographic groups. Events like park parties and virtual programming are part of this initiative.
5. **Economic Development and Revenue Generation:** To support its growth and sustainability, the district seeks funding through grants, partnerships, and innovative fundraising campaigns. The plan also involves increasing facility usage and exploring new revenue streams.

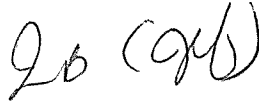

Key objectives include developing a five-year budget, expanding staff, and enhancing park infrastructure. Growth goals involve increasing participation rates by 3% annually

and adding new programs and partnerships. Additionally, the district will improve internal processes like staff training, policy updates, and succession planning. This strategic plan reflects a comprehensive approach to maintaining and growing the Sycamore Park District while ensuring it remains a vital, accessible, and sustainable part of the community

FISCAL IMPACT:

STAFF RECOMMENDATION: This is an overview of our updated strategic plan; we are still finalizing the completion dates and will have these completed by the October 22nd Board meeting.
